SPORTS FLOORING

A SIKA BRAND

# INNOVATION AND SUSTAINABLE DEVELOPMENT ARE IMPORTANT PARTS OF OUR MISSION AND VISION.

## TITLE

A wooden floor can give your gym or sportshall a professional and decorative look. The Pulastic® Woodgrain has best of two worlds: the appearance of a wooden floor and the seamless, hygienic standards of a Pulastic® sports floor.

## THE ADVANTAGES OF THE PULASTIC® WOODGRAIN

- Wood-appearance possible in seamless Pulastic sports floor; the nice look and feel of wood, combined with the advantages of a seamless floor.
- Woodgrain applied in the Pure line also meets Eurofins Indoor Air Comfort Gold requirements standard for maximum protection of the indoor air quality just as the regular Pure line does. Sustainable and fully recyclable.
- Compliant: M1, CDPH, AgBB/ABG, French VOC/CMR and Belgian VOC regulation BREEAM International compliant in conformity with international standard GN22.
- Pulastic Pure line combined with a woodgrain effect adds value in tenders within the prescriptive market and therefore opens doors for Sika as sustainable partner & total supplier.
- Minimal impact on the environment without compromising any high-quality characteristic of the sports floor.
- 20 times more clean than the worlds strictest limits in regard to TVOC (which is the Eurofins Gold standard)
- We strive to deliver the worlds 'cleanest' sports flooring systems together with a material passport and without additional costs. corporate sustainability.

## SEAMLESS CONSTRUCTION FOR THE LONG TERM

The Pulastic® Woodgrain is composed as follows:

- A special prefabricated granular Pulastic 2 Pulastic rubber or foam shockpad. The thickness depends on the final requirements and level of comfort versus multi-purpose use. For details please see the table.
- The P2P shockpad is bonded to the subfloor with solvent free adhesive.
- Porefiller and structural self-levelling polyurethane layers are applied.
- A matt water based sealcoat finishes the floor.
- Court marking with durable waterbased linepaint.
