# BESPOKE ACOUSTICAL WALL COVERING SOLUTION PROVIDING COMFORT AND SAFETY FOR FITNESS AND WELLNESS ENVIRONMENTS

## BESPOKE ACOUSTICAL WALL COVERING

The Pulastic® Soundwall has been designed to answer the latest developments in the world of fitness and wellness. As part of the Pulastic® fitness solution the Pulastic® Soundwall offers impressive acoustical improvement to existing and new build fitness areas. In addition the Pulastic® Soundwall is tested according to the most strict regulations with regard to sport safety. Next to this the Pulastic® Soundwall creates a welcoming workout atmosphere designed to motivate fitness enthusiasts with extreme detailed and lively images.

## THE ADVANTAGES OF THE PULASTIC® SOUNDWALL

- Unmatched sound absorbing properties, being 15% more effective than comparable solutions
- Alternative way to improve the quality perception of your club
- Proven results for improvement on intelligibility and decrease of ambient sounds
- Soft touch and sports safe to ensure user safety
- Countless bespoke design possibilities to create stimulating fitness environments
- Outstanding colour fastness due to the unique fibre printing method
- High mechanical strength and impact resistance
- Smooth surface for easy maintenance
- Hearing ... and seeing is believing

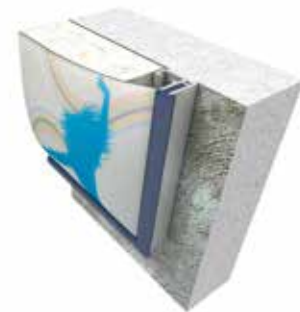

## BRINGING YOUR FACILITY TO THE NEXT LEVEL

Because of the wide colour and design selection, a Pulastic® fitness floor and Soundwall can easily be adapted to a specific branding, mood or style of your club. Looking at the latest functional and aerobic training concepts Pulastic® fitness solutions fit perfectly, the possibilities are endless.

## HEARING IS BELIEVING

With our long-term experience in multi-sports venues Pulastic® has solved countless of acoustical issues. Day in, day out everywhere around the world people like P.E. teachers, kids and athletes suffer from noise related to echo's bouncing up and down the wall and ceiling. For instance poor intelligibility is a result of this issue. Regular exposure to noise can also lead to physical and psychological health consequences.

For fitness and wellness environments the situation is unfortunately comparable. Almost every fitness facility has group-exercise rooms with an enthusiastic instructor which encourages the class accompanied by loud music. Because of the phenomenal sound absorption of the Pulastic® Soundwall such rooms will be turned into very comfortable areas.

Name	Nominal thickness	Fire classification	Build-up
Soundwall 40	40 mm	B-S1	Polyester filling and cloth in aluminium wall frames
Soundwall 70	70 mm	B-S1	
Soundwall Custom	70+ mm	B-S1
